

PEST PREPARATION GUIDE · SPIDERS & CRAWLING INSECTS

# Spider Extermination

Spiders and other crawling insects shelter in cracks, crevices and quiet corners. These steps let your Terra13 technician reach infested areas, treat cracks and crevices, and reduce food sources safely.

- Spray treatment
- Re-entry 4–6 hrs
- Cracks & crevices

**BEFORE YOUR TREATMENT**

Tick each box as you prepare

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
